Title: An Outing

Ann and her family went to Ma On Shan Country Park for a picnic. They found a site and laid out a mat on the lawn. Ann's mother then took out sandwiches, juice and fruits. The weather was good and the park was beautiful and relaxing.

Some monkeys were hiding behind the tree not far from them. The monkeys were hungry and looked for food everywhere. They were waiting for a chance to grab the food.

The monkeys suddenly ran closer, attacked the family, stole some of the food and escaped in a hurry. Ann and her family were shocked and scared. They packed their things and moved to another location further away.

The monkeys did not appear again. Ann and her family continued to enjoy the rest of the day. On their way home before leaving the park, they reported the incident to a park ranger.
