Title: An outing

Last Sunday, Ann and her parents went to have a picnic in Hong Kong Happy Park. They brought a lot of food there, like sandwiches, salad, fruits and apple juice. They enjoyed the food under the sunshine and they felt very relaxing.

Suddenly, there was something moving behind the tree. It was a monkey who was looking for food. The monkey looked very hungry. The monkey was attracted by Ann's family's yummy food.

The monkey called its friend and quietly ran closer to Ann's family. It quietly jumped toward Ann's family and tried to attack them and steal away the yummy food. Ann and her family were so scared that they should not even move a step. The monkey stole all the food and Ann's hat because it has a beautiful ribbon on it. The monkey escaped away like a wind.

Ann and her family tried to follow the monkeys to get Ann's hat back but they could not. The monkeys ran too fast and disappeared. They had no more food left, so Ann and her family were upset and they did not want to come here again.
