Title: Ann and the treasure box

Ann and her friends went to the beach. It was a normal day. The sea was clean, the birds were chirping, the sand was yellow, the sky was blue and some people were sunbathing. They built a sandcastle. Ann's friend Relay put a flag on the sandcastle.

After building the sandcastle, they were tired and had a rest. When they were resting, they found a floating thing in the sea. Cholaca said, 'Maybe it is a big golden ball!' Relay replied, 'Don't be silly! There is no thing as golden ball.'

It was a treasure chest! The chest was very heavy. They carried it to the beach.

They opened the chest and inside was another chest, and inside that chest was a map with a cross on it. They went to the cross location and dug down. It was another chest and inside was tons of gold and diamonds and copper money! There was also a paper in the chest, it said the chest was buried in 1987. They were all surprised!
