**Title: Fun Turns to Danger**

Last Sunday, Johnny went to Kadoorie Farm with his classmates. They went there by coach. When they arrived, they saw a tour guide at the entrance of the farm greeting them.

After they alighted, the guide led them to different places at the farm. First, they visited a greenhouse where there were different kinds of plants. The children were amazed by the special plants. This was their first time to see white aubergines.

After they left the greenhouse, they went to the animal farm. The children saw many animals there such as pigs, ducks, turtles and so on. It was such a tranquil place and the children found it relaxing.

While Johnny was looking around the farm, he saw Tony poking the beehive. Johnny shouted, 'Stop! Don't poke it!' However, it was too late. The bees came out from the beehive and the children were running as fast as they could. Eventually, everyone was safe except Tony. He got bee stings all over his body. From this accident, Tony has learnt that it is a dangerous action to poke the beehive.
